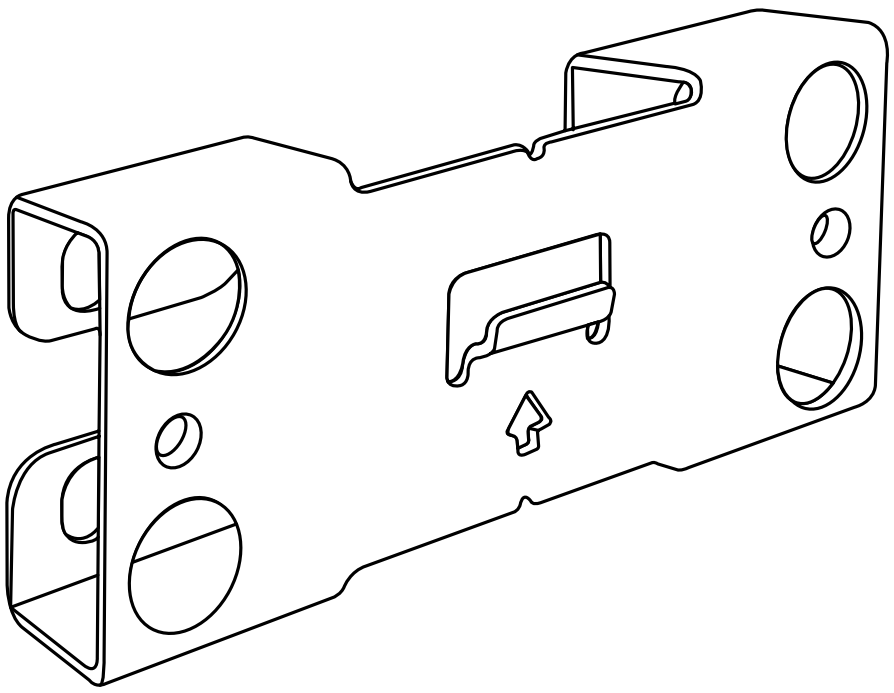
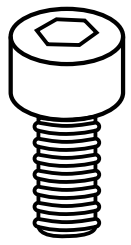
Items included

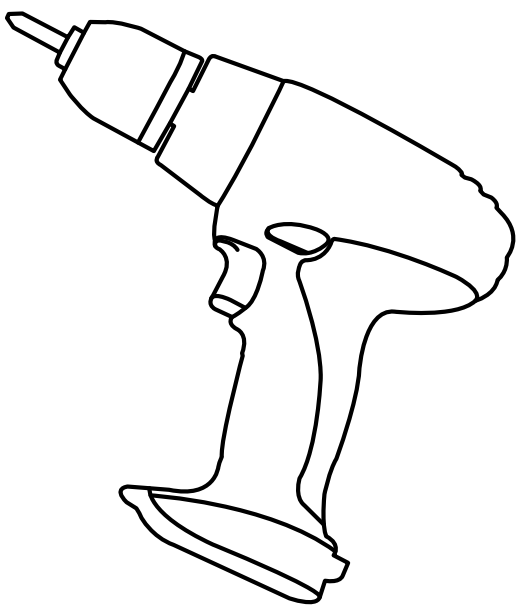


Wall Mount

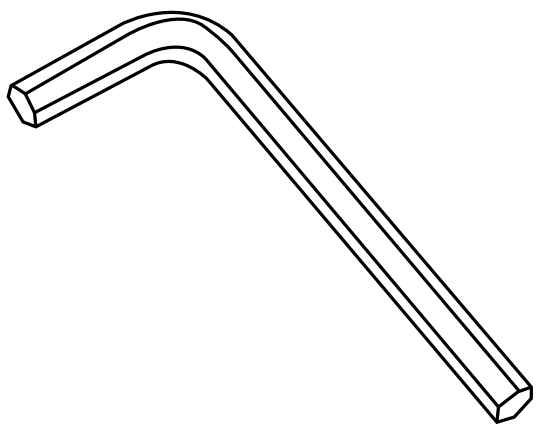


M5x12 Screws
(2pcs)

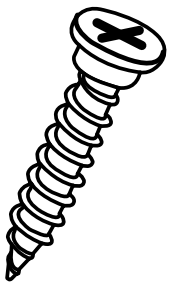
Tools needed (not supplied in the pack)



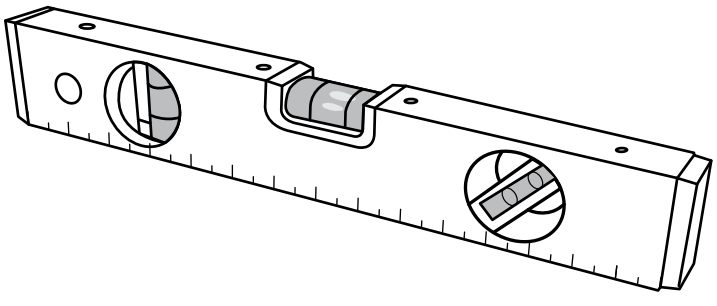
Drill



4mm hex key



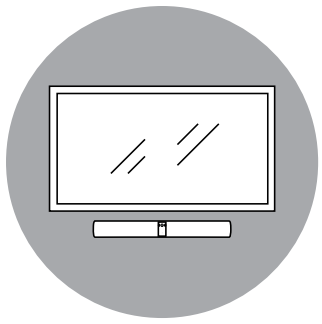
Wall screws

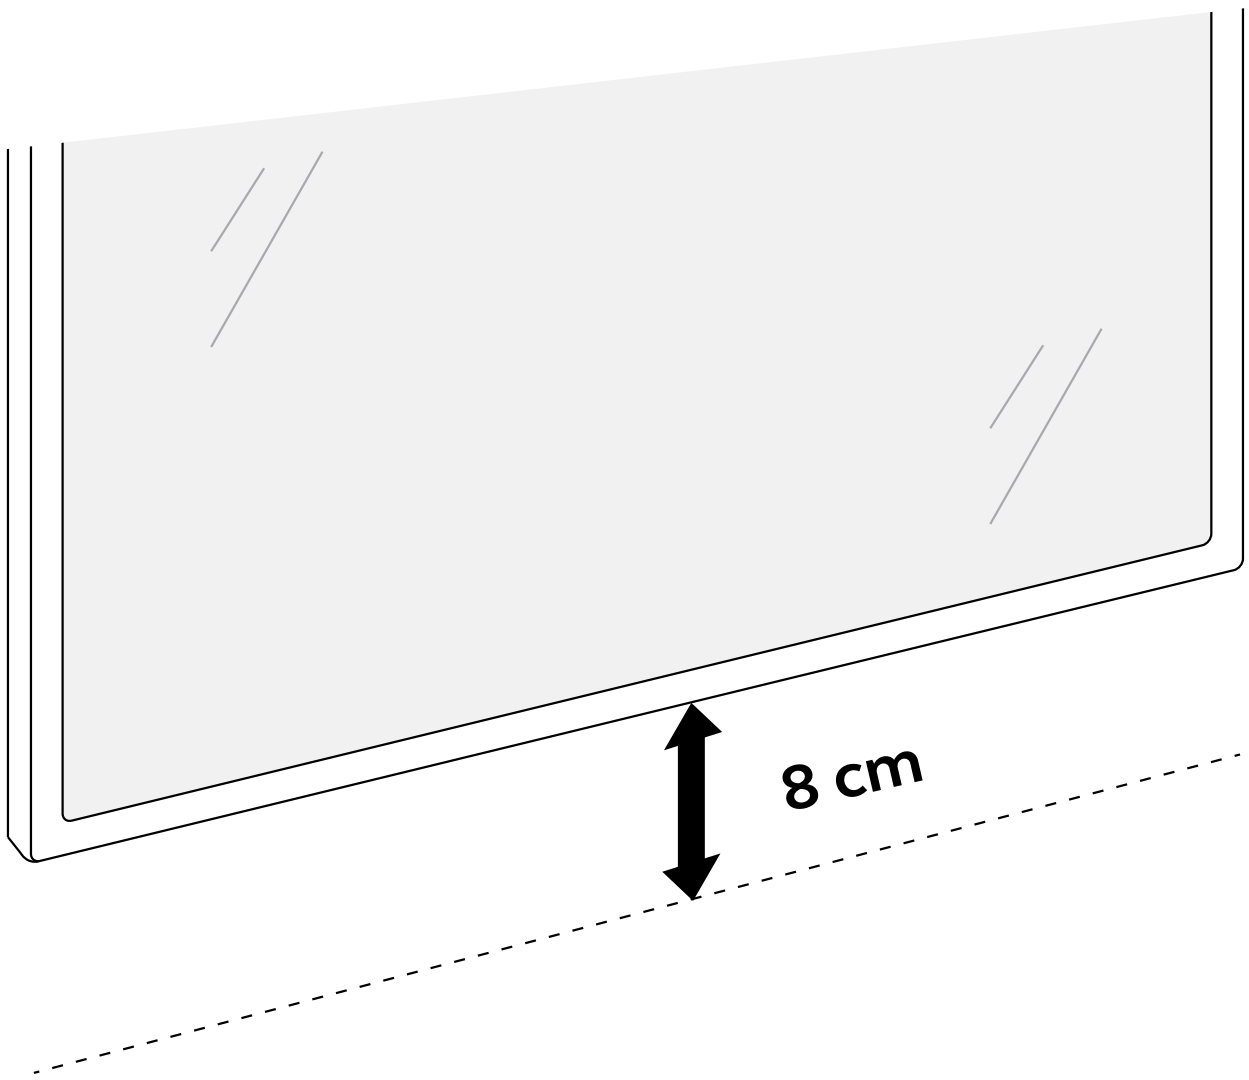


Level

1

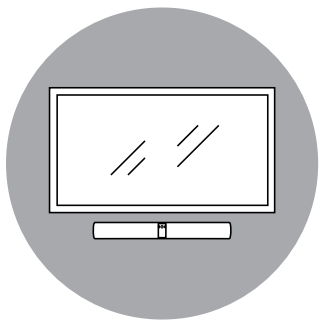
Measure **8cm** below the screen for Wall Mount placement. The top of the **Wall Mount** will align with the 8cm.

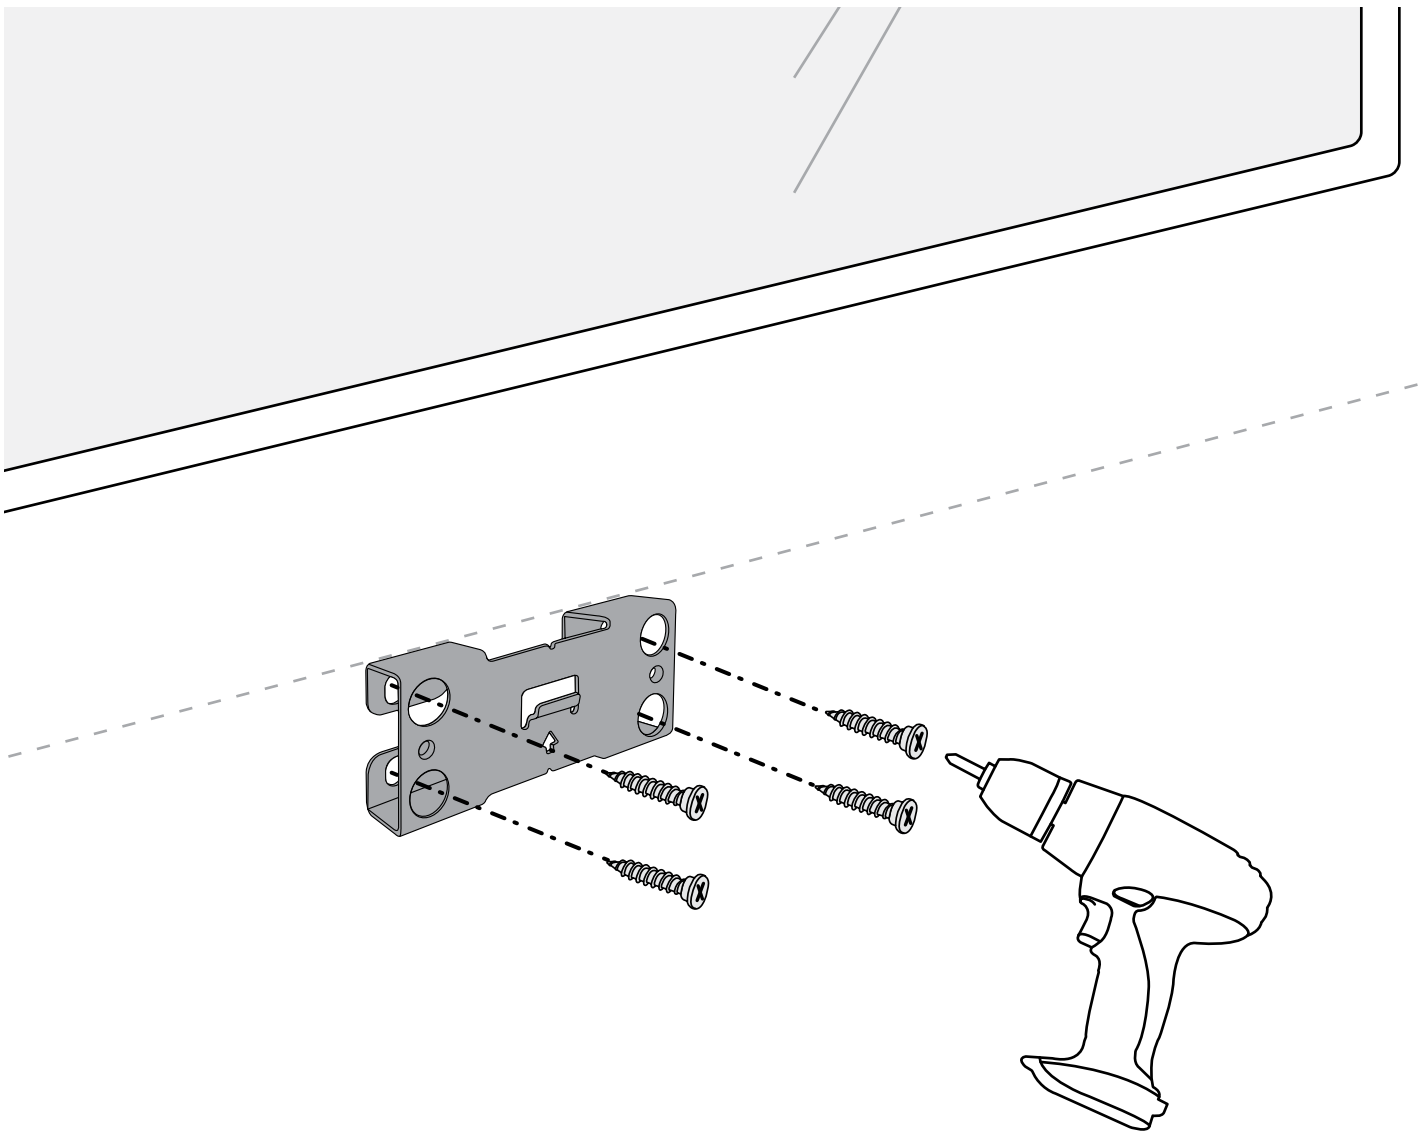




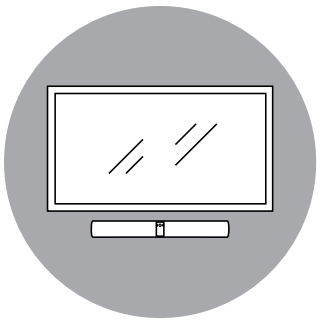
2

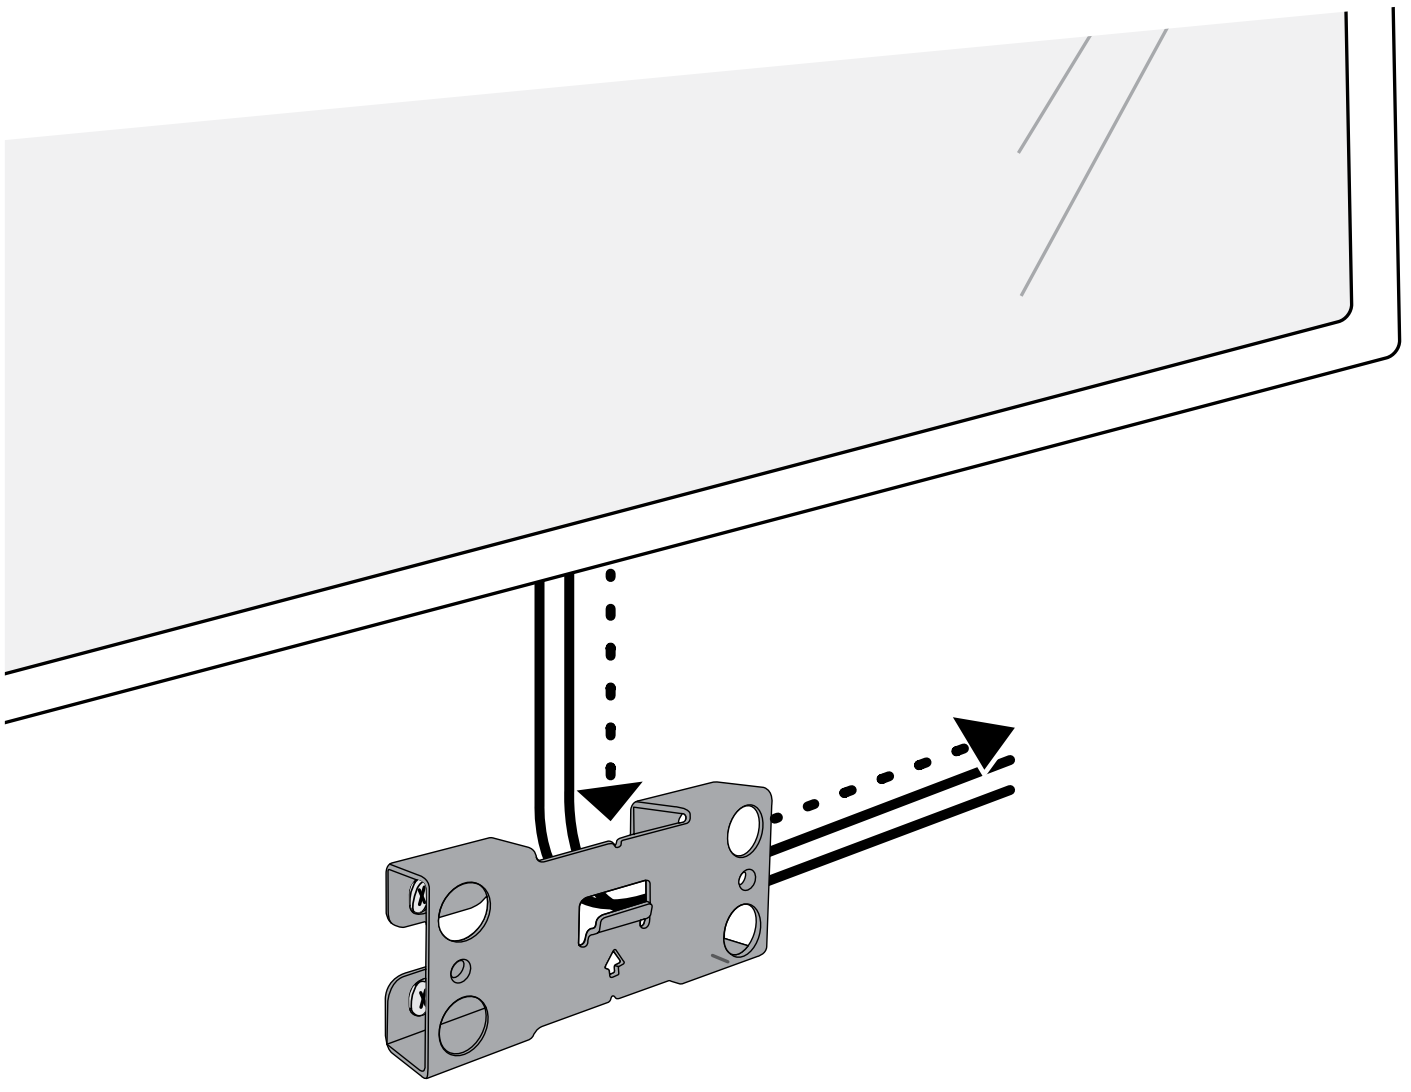
Screw the **Wall Mount** to the wall using a drill (screws not supplied).



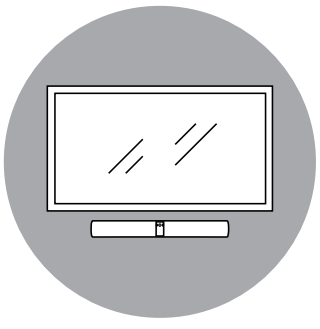


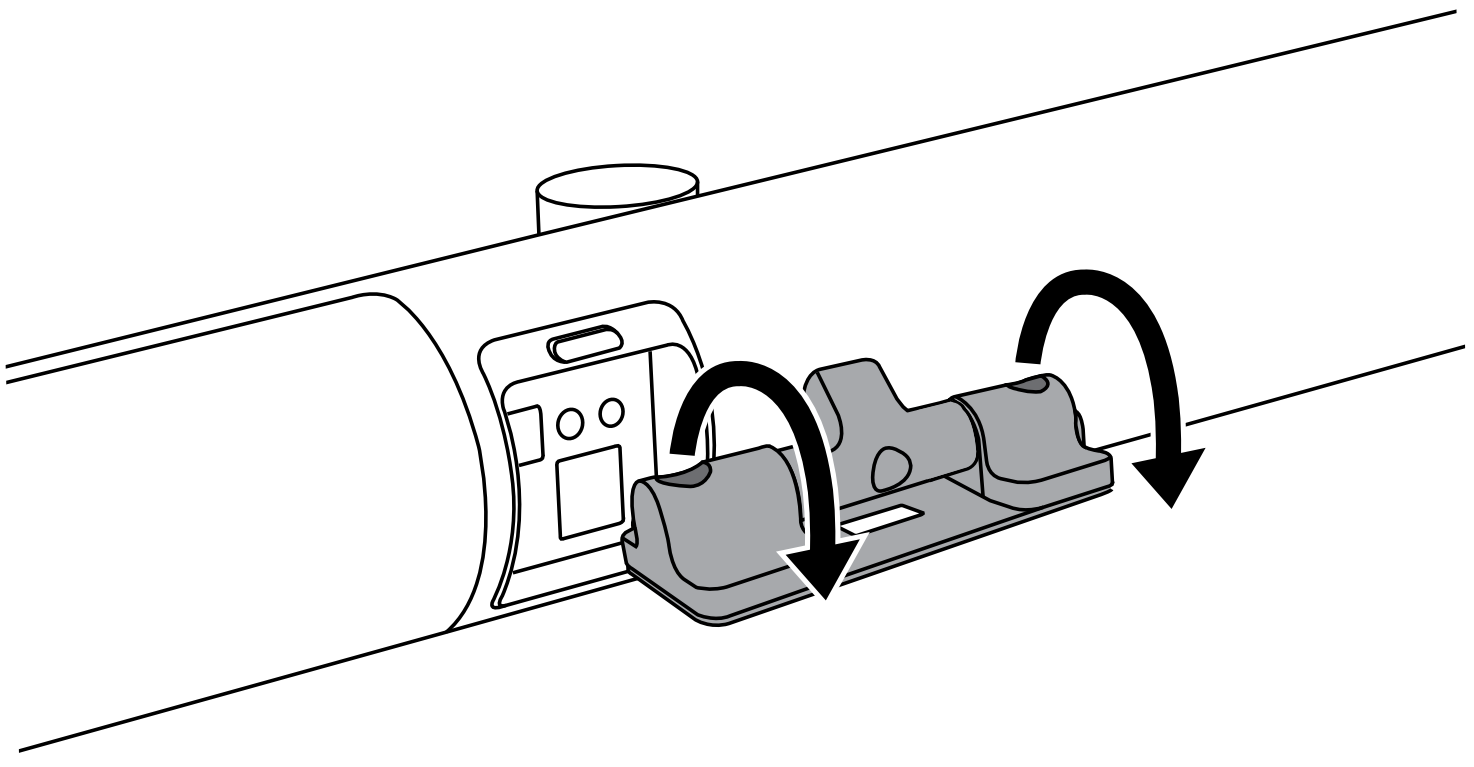
3 Route all relevant cables through the Wall Mount and to the right.



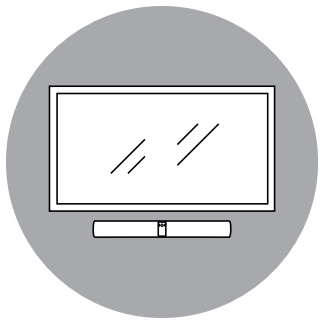


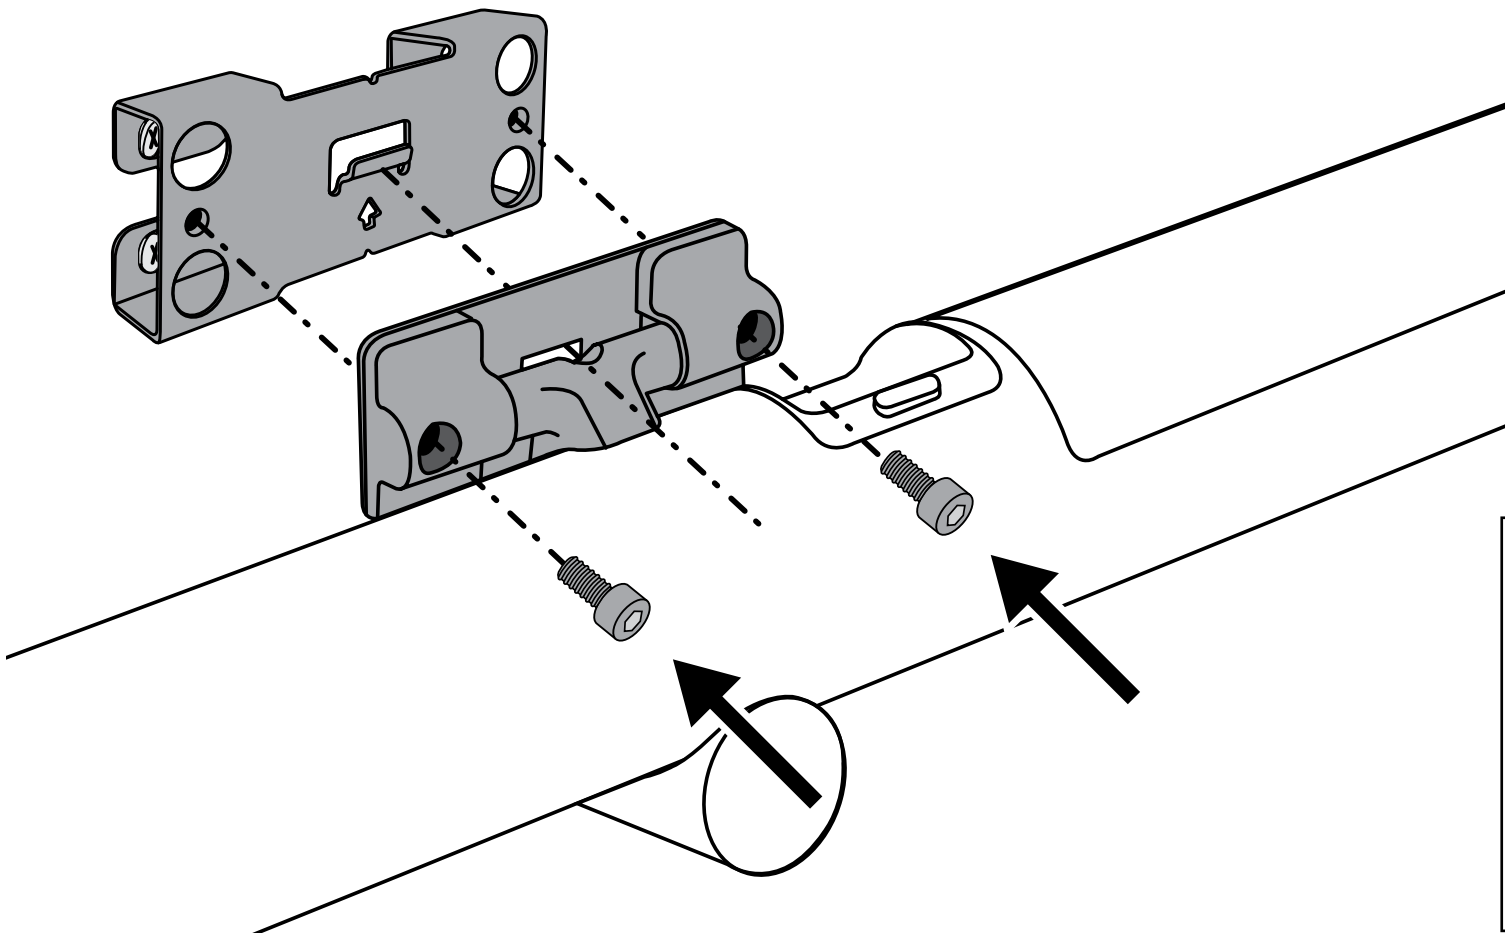
4 Tilt the hinge on the PanaCast 50 for easy access to the screw holes.

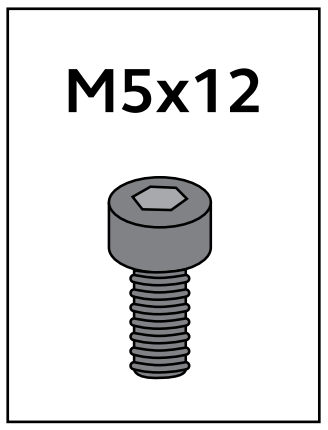




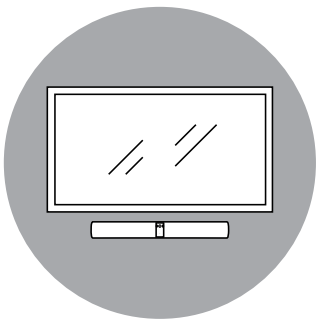
5 Mount and screw the PanaCast 50 to the Wall Mount using the supplied **M5x12 screws** and a **4mm hex key**.

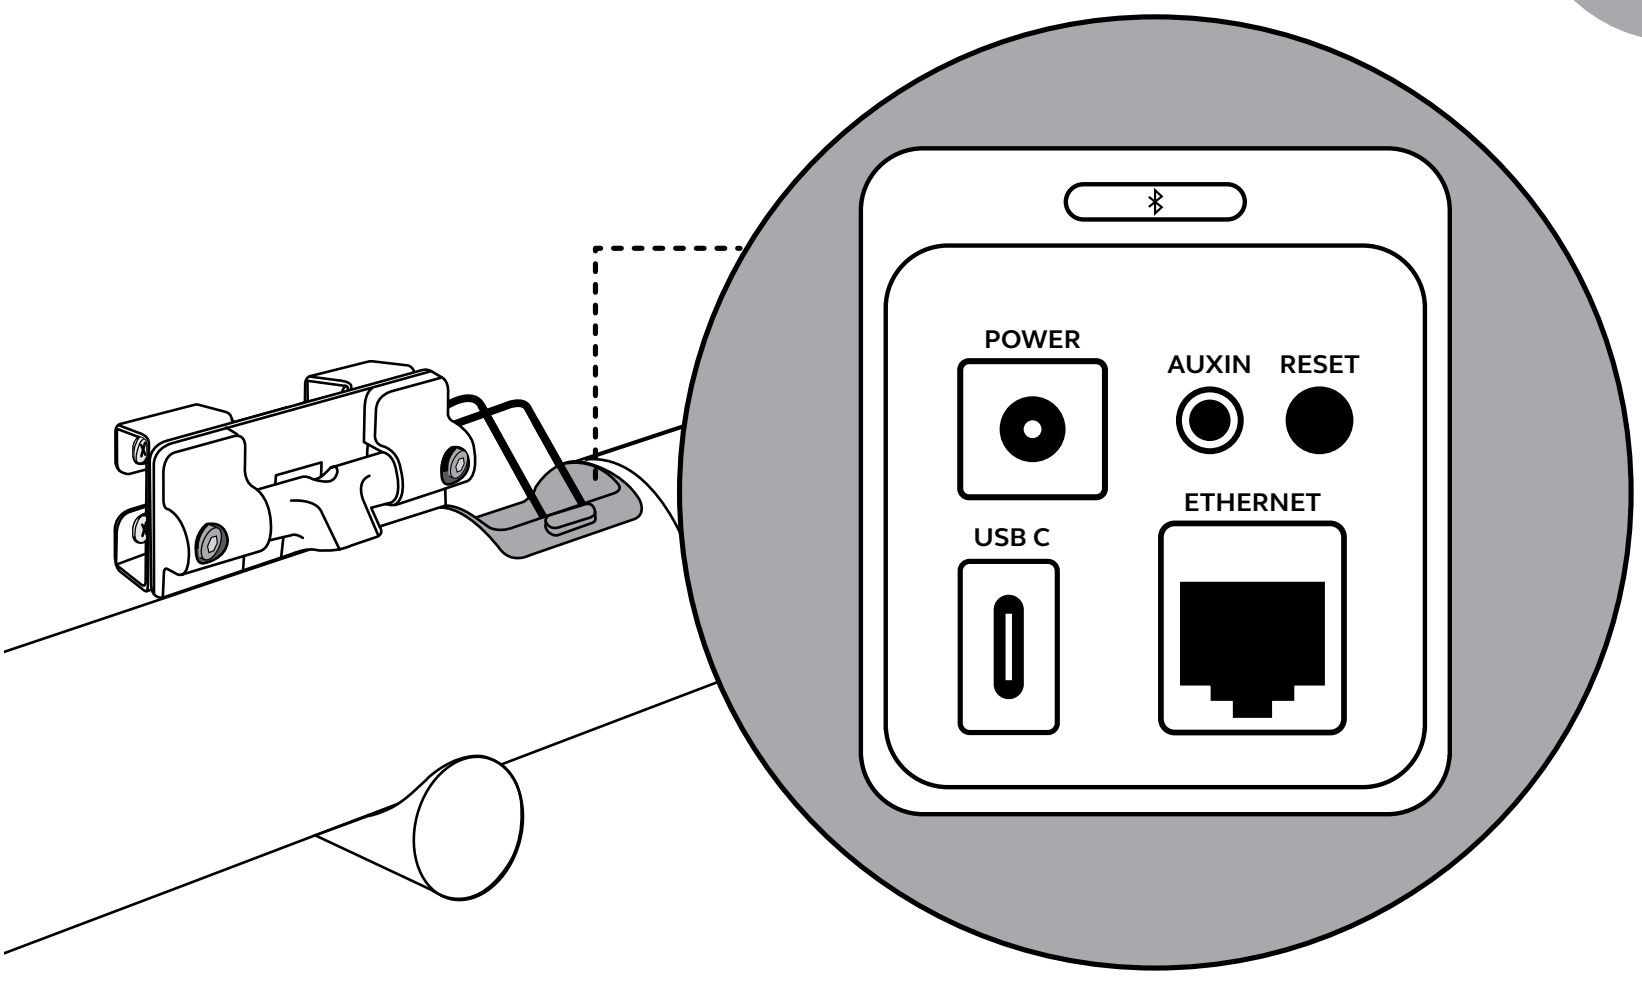




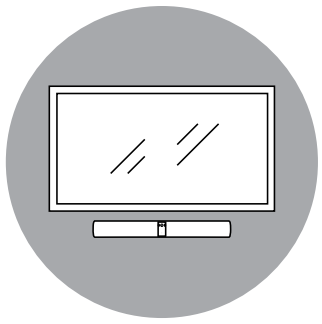


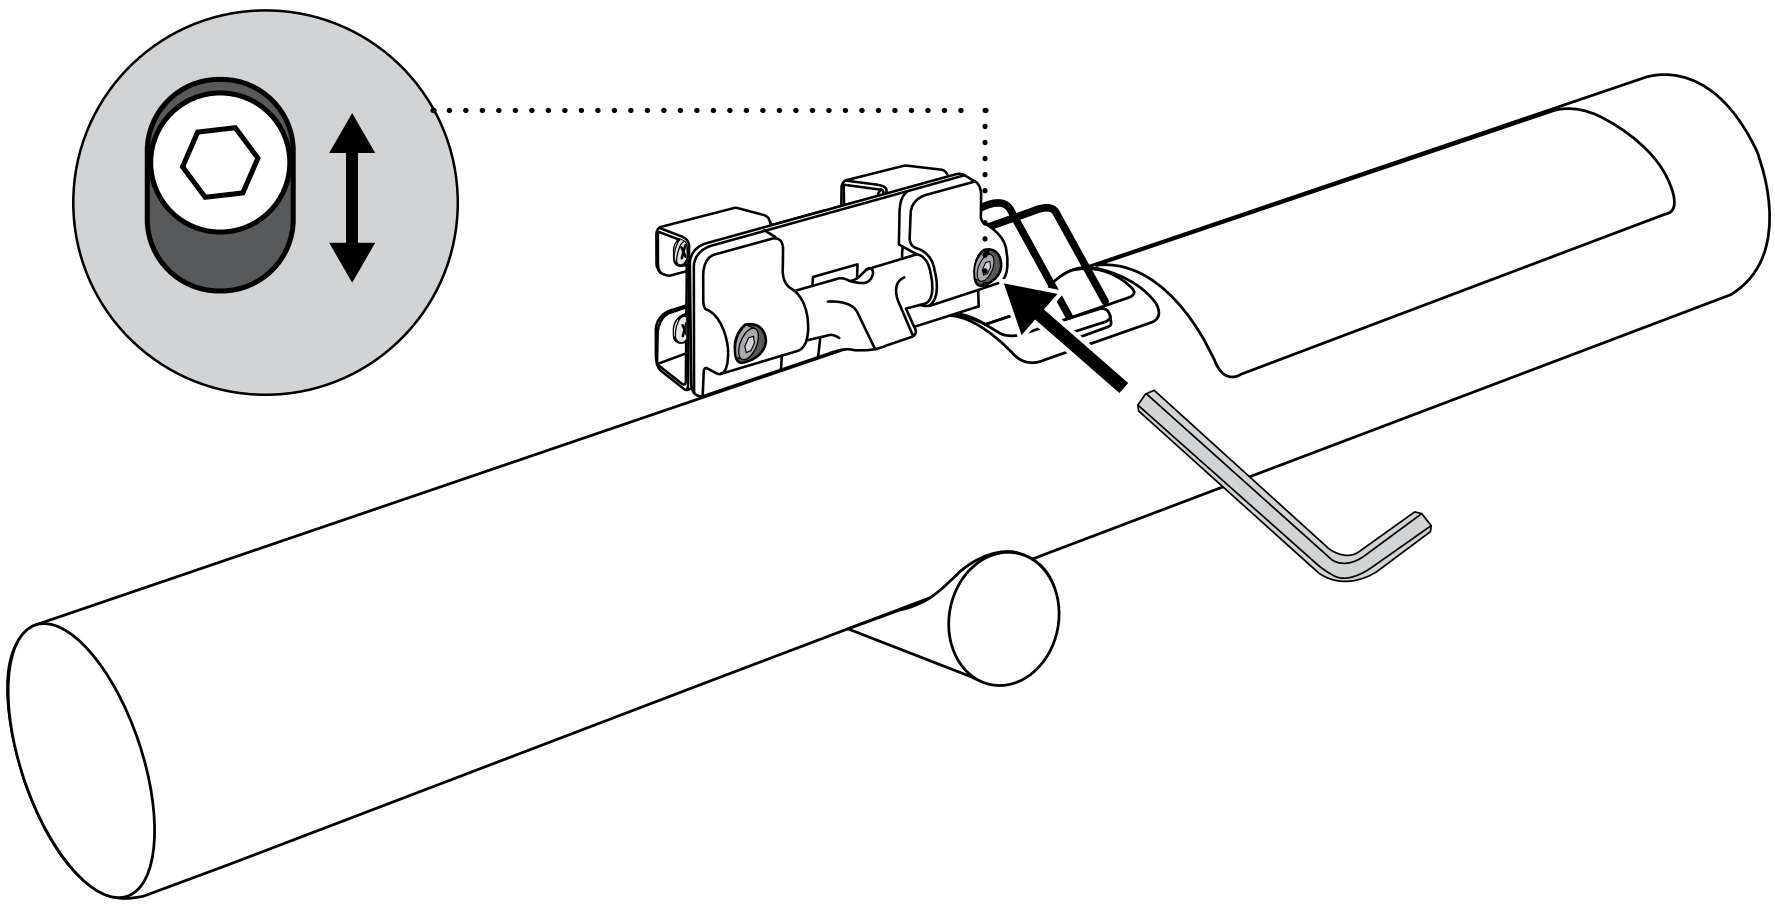
6 Attach the relevant cables to the PanaCast 50.





7 If the PanaCast 50 is not level, adjust the angle by loosening the right screw, leveling and re-tightening the screw.





8 Rotate the PanaCast 50 into its final position and angle the camera to point at eye-level.
