

Jabra Speak Series Engineered to make conference calls easy and collaboration simple

A range of easy-to-use speaker-phones with superior sound quality for all leading Unified Communication (UC) platforms. Need office speakerphones for crystal-clear communication in your client meetings and catch-ups? The feature-filled Jabra Speak series makes conference calls easy with intuitive interfaces, multiple connectivity options such as Bluetooth® and superb sound quality. Whether you need a central speakerphone for your office boardroom or a portable device that's perfect for traveling with you on sales pitches, the Jabra Speak series has the speakerphone for you.

Engineered to make UC conference calls productive and hassle free, your customers can now set up and take calls anytime, and in any space. Ideal for enabling and accelerating UC adoption and securing the organization's UC Return on Investment (ROI).
