

TO ACTIVATE BLUETOOTH ON A **PLANTRONICS Savi 8000** SERIES BASE

- 1 Hold down the subscription button/LED and the mobile phone button at the same time (circled in red in the above diagram). The subscription button is the long black button on the left side at the front of the base with the green/yellow led on it. The mobile phone button can be found on the top of the base with the image of the mobile directly under it.
- 2 You should only need to hold the buttons for a few seconds; you will see the mobile button at the top of the base flash green. Once it flashes green Bluetooth has been turned on.
- 3 Then to put the headset into pairing mode hold the BT button (circled in green on the above diagram). Hold this down till you see the Bluetooth symbol start flashing red and blue.
- 4 Once this is flashing, you will be able to search for devices from your phone or tablet and pair to the headset.
- 5 If your device asks you for a password to connect it is - 0000
- 6 If you ever want to turn bluetooth back off, just hold the subscription and mobile button again and the mobile button will flash red to indicate BT has been deactivated.
- 7 If you are using the Plantronics Hub Software, bluetooth can also be turned on and off under the settings tab. <https://www.poly.com/au/en/support/downloads-apps/hub-desktop>
