

Plantronics APP-51 EHS Setup

Plug your ehs cable in as per diagram.

The RJ & 3.5mm jack combined plug will connect to the back of your headset base.

The other end of the cable splits into 2 plugs.

The RJ connection (square phone like plug) will plug into the headset port on your phone.

The other connection will plug into the EHS Port on your phone.

Tried everything and still not working?
